

Project Sheet

Farzi Caf  

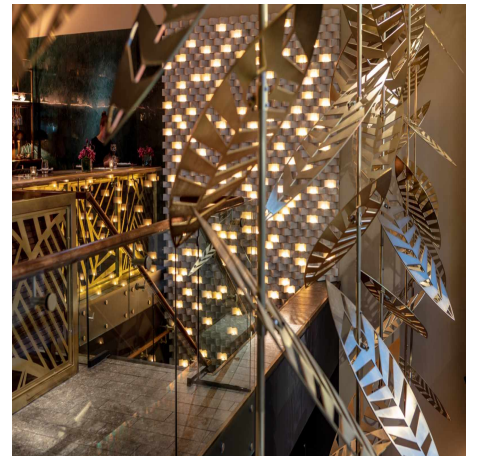

Location Haymarket

Timing 12 weeks

Farzi Caf   was an exceptional development in Haymarket since it provides a glamorous modern spice bistro due to the effective lighting design and intricate wall finishes. The marvellous brass features and sophisticated signage in the shopfront instantly fascinates the imagination and creates elegance.

Ecsec and Design LSM (architect) were able to collaborate effectively with the client to produce all their requirements which lead to an energetic and modernistic take on a pan-Indian restaurant. The endeavour had a contract value of £780,000 which we were able to complete in 12 weeks.

Farzi caf   was first stripped out and then constructed in a unit that is over 5000 square feet with the possibility of seating 124 people. The customers can dine in maximum comfort from the exquisite upholstery on the banquette seating, which is supplied by us (Ecsec). The most riveting area of the Farzi caf   is the chef  s table since it has tall antique brass panels on the wall which contrast the green gloss timber diagonal wall panels, which makes the area extremely captivating. Ultimately, the lighting design relaxes the emotions with various metal features that arouses one senses.

At ecsec we pride ourselves on delivering projects to the highest quality within budget and on time. To find out more please get in touch.
